- United Healthcare
- Aetna
- Cigna
- Coventry
- Humana
- Unicare
- Medicare
- Minuteman

Do you require a referral?

Insurance plans often required referrals to see specialists. Prior to your appointment, please call your primary care physician to request a referral. You will need the following information:

- The physician's name, Dr. John Leung and his NPI number: 1447328711
- The reason you would like to see a specialist

We ask that you request this referral as early as possible, and as your primary care physician's office to fax it to 877-726-8492. If you arrive to the clinic without a referral (if required), we will have to reschedule your appointment.

Please call 617-804-6767 with any questions.
